

Chemical Biology Colloquia

Spring 2004

Date and Location	Speaker	Seminar Title
Wednesday March 17 Smith 117/119 12:10-1:00 pm	Prof. Slobodan Macura Mayo Clinic	"Weak intermolecular interactions by NMR"
Wednesday March 31 Smith 117/119 12:10-1:00 pm	Prof. Rodney Johnson Department of Medicinal Chemistry University of Minnesota	"Peptidomimetic Modulators of the Dopamine Receptor"
Wednesday April 7 Smith 117/119 12:10-1:00 pm	Prof. Romas Kazlauskas BMBB University of Minnesota	"Directed Evolution of Enantioselective Hydrolases for Organic Synthesis"
Wednesday April 21 Smith 117/119 12:10-1:00 pm	Prof. Bruce Hammer Radiology Director, Center for Interdisciplinary Applications in Magnetic Resonance	"Spins, Magnets and Chemistry: The ingredients for NMR imaging"
Wednesday April 28 Smith 117/119 12:10-1:00 pm	Prof. Mike Ward Department of Chemical Engineering and Materials Science	"Calcium oxalates crystal surfaces: toward understanding of kidney stone formation"
Wednesday May 12 Smith 117/119 12:10-1:00 pm	Prof. Betsy Wattenberg Dept. of Environmental and Occupational Health University of Minnesota	"Deadly Coral Makes Good" Deregulation of protein kinase cascades in carcinogenesis: a novel tumor promoter reveals how Ras resets the stage.
Wednesday May 19 Smith 117/119 12:10-1:00 pm	Prof. Shana Sturla Department of Medicinal Chemistry University of Minnesota	"Cancer Chemoprevention: Metabolically stable analogs of inositol phosphates"
